January 9, 1985

SUBJECT: Civil Action 80-73699 Consent Decree, BASF Wyandotte Corp. (BWC),
Riverview, Michigan Site Modification Program.

Mr. Jonas A. Dikinis
Waste Management Division
USEPA
Region 5
230 South Dearborn St.
Chicago, Illinois 60604

Dear Mr. Dikinis:

Monday, January 7, 1985 Mr. Rod Brandau of BWC gave Mr. Carl Woodruff of my office the following status update on the Riverview site:

- 1) Sealing of the center ditch concrete liner joints was completed Friday, January 4, 1985. There is no evidence of further seepage either from the joints or the ditch outlet into the Trenton Channel.
- 2) Punch list items remaining to be done consist of removal of the perimeter straw bales, filling in of several low areas and repair of tire track damage to the grass areas. This will be done by the Contractor when the ground is hard enough to support equipment movement without damage to the ground surface.
- 3) The grass areas will be rolled and mowed next Spring.
- 4) Installation of the monitoring wells is expected to start in mid-February, 1985.

Since Mr. Brandau is being assigned to another project, he requested that future contact with BWC be made through Mr. Bill Axce.

If you require further information please contact Mr. Woodruff at 8-226-3074 (FTS).

Sincerely,

Ronald I. Bobbitt
Chief, Detroit Area Office
